Statement

Affirmation of Ethical Decision Making

This statement affirms that all physicians, employees, consultants or management staff responsible for making utilization management (UM) decisions for Banner Plan Administration (BPA) adheres to the following guidelines:

- Utilization management decision making is based only on medical necessity and appropriateness of care or treatment subject to the terms of the applicable plan of coverage;
- BPA does not reward practitioners/providers nor those who manage/direct decisions to deny coverage, and
- Financial incentives for UM decision makers do not encourage decisions that result in underutilization or overutilization.
